

PRIYANSU RATH

Security Operations Engineer | SOC Analyst | Threat Detection & Incident Response
Gurugram, Haryana, India | (+91) 7978384911, 8339996910

PROFESSIONAL SUMMARY

Results-driven Security Operations Engineer with 2+ years of experience in 24/7 SOC environments, managing 20+ daily security incidents with 100% SLA compliance. Proficient in threat detection, digital forensics, and incident response across cloud-native and hybrid enterprise infrastructures. Hands-on expertise with Azure Sentinel (Microsoft Sentinel), CrowdStrike XDR, Splunk SIEM, and KQL analytics. Proven track record of engineering custom detection rules, reducing false positives, and automating triage workflows to enhance SOC efficiency.

CORE COMPETENCIES & TECHNICAL SKILLS

SIEM Platforms:	Microsoft Sentinel (Azure Sentinel), Splunk
EDR / XDR:	CrowdStrike Falcon EDR/XDR
Cloud Security:	Microsoft Defender for Cloud, Microsoft Entra ID (Azure AD), Azure Monitor Agent (AMA)
Identity & Access:	Microsoft Entra ID, IAM, PAM, Purview, SC-300
Data Loss Prevention:	Netskope DLP, Microsoft Purview
Security Automation:	SOAR, KQL (Kusto Query Language), Python, Regex
Threat Intelligence:	Threat Hunting, IOC Analysis, MITRE ATT&CK Framework
Forensics & IR:	Digital Forensics, Packet Analysis, Attack Chain Reconstruction, Endpoint Forensics
DevOps / Tools:	Docker, Kubernetes, Git, Sentinel Watchlists

PROFESSIONAL EXPERIENCE

Security Analyst & Engineer | Accenture Aug 2024 – Present

- Monitor and investigate security events across multi-tenant cloud environments, analyzing 10+ daily incidents via Azure Monitor Agent (AMA) and CrowdStrike Falcon XDR telemetry, including DLP investigations within Netskope.
- Perform digital forensics and incident response using CrowdStrike Falcon EDR, Microsoft Sentinel, and Splunk to identify initial access vectors, lateral movement, and business impact across enterprise networks.
- Conduct packet-level network traffic analysis and endpoint forensics to reconstruct attack chains and produce comprehensive incident reports documenting system state changes.
- Engineered 20+ custom KQL analytics rules in Microsoft Sentinel to expand threat detection coverage across cloud-native and hybrid infrastructure environments.
- Developed KQL-based domain visualization and Regex body analysis to automate classification of marketing vs. phishing emails, reducing manual triage workload by 40%.
- Optimized Microsoft Entra ID Identity Protection alert pipeline, achieving a 40% reduction in alert volume while enhancing detection precision for compromised credentials.
- Remediated logic flaws in detection queries, reducing aggregate alert noise by 19% and streamlining SOC analyst workflows.
- Deployed Sentinel Watchlists to categorize known benign scanning activity, substantially lowering false-positive rates across the SOC environment.

INTERNSHIPS

Security Delivery Intern | [Accenture](#)

Mar 2024 – Jun 2024

- Completed Security+ equivalent training with hands-on Splunk SIEM investigations, log analysis, and security event triage in a structured SOC environment.

Software Development Intern | [HighRadius](#)

Apr 2023 – Sep 2023

- Automated invoice processing pipeline using Java, Spring Boot, and Puppeteer; authored Regex patterns for OCR-based data extraction, improving accuracy of invoice-to-portal ingestion workflows.

CERTIFICATIONS

- [CompTIA Security+ \(SY0-701\)](#)
- [SC-200: Microsoft Security Operations Analyst Associate](#)
- [SC-300: Microsoft Identity and Access Administrator Associate](#)
- [SC-401: Microsoft Information Security Administrator Associate](#)
- [SC-900: Microsoft Security, Compliance, and Identity Fundamentals](#)
- [AZ-900: Microsoft Azure Fundamentals](#)

PROJECTS & HANDS-ON TRAINING

TryHackMe Cybersecurity Labs | Top 3% Platform Ranking

Ongoing

- Completed 150+ hands-on cybersecurity labs covering incident response, digital forensics, network traffic analysis, threat hunting, and security engineering; achieved top 3% global platform ranking.

EDUCATION

B.Tech. in Computer Science & Engineering | KIIT Deemed University, Bhubaneswar

2020 – 2024

CGPA: 8.75 / 10.0
